

SADAAN ANSARI

Junior Software Developer

Mumbai, India | +91 7045623244 | ansarisadaan72@gmail.com | [GitHub](#) | [LinkedIn](#)

PROFILE

Results-driven **Junior Software Developer** with **2.1 years** of experience in **full-stack development**, specializing in **Node.js, React.js, REST APIs**, and database-driven applications. Skilled in building **scalable backend services**, optimizing application performance, and delivering end-to-end solutions for platforms like **Ticket Portal** and **DevConnect**.

Experienced in **Agile development, microservices architecture**, and working with both SQL and **NoSQL** databases including **MySQL, MongoDB, Redis**, and **ScyllaDB**. Strong problem-solving abilities with a passion for developing efficient, secure, and user-focused applications.

EDUCATION

07/2023
Mumbai, India **BE in Computer Engineering, G.V Acharya Institute of Engineering and technology**
CGPA: 8.58/10

EXPERIENCE

- 10/2024 – Present
Mumbai, India **SlashRtc, | Junior Software Developer**
- Develop and customize web applications for client-specific business requirements using **JavaScript, React.js**, and **PHP**, improving application functionality, usability, and performance.
 - Contribute to the **Customer Delivery (CD)** team by implementing new features, enhancing existing modules, and delivering tailored software solutions for enterprise clients.
 - Perform root cause analysis, debugging, and production issue resolution as part of the **L3 Development** team, ensuring application stability, reliability, and seamless user experience.
 - Maintain and optimize production applications by identifying performance bottlenecks, resolving defects, and implementing long-term fixes for recurring issues.
 - Contributed to the development of an **internal Ticket Portal** platform focused on customer issue management, client communication, workflow automation, and sales tracking.
- 05/2024 – 09/2024
Mumbai, India **Coast to Coast Holidays, | Junior Developer**
- Updated website content, both with and without **CMS** platforms.
 - Added and modified application logic using the **CodeIgniter framework**.
 - Designed and implemented **PHP** and **MySQL** solutions based on project requirements.
 - Collaborated with the team on database structuring and optimization

TECHNICAL SKILLS

Programming Languages: JavaScript (ES6+), PHP, C/C++, SQL, CQL (ScyllaDB)

Tools: Docker, Git/GitHub, VS Code, Postman, Chrome DevTools, Swagger API Docs, Basic Jira Workflow Knowledge

Databases: MySQL, MongoDB, ScyllaDB, Redis

Frameworks & Libraries: Node.js, Express.js, React.js, WebSocket, CodeIgniter (MVC) TailwindCSS, Material-UI, Bootstrap

Concepts & Methodologies: REST APIs, Microservices, Agile/Scrum, OOP, MVC Architecture, DBMS

PROJECTS

- 07/2025 **Ticket Portal, | Development**
Node.js, Next.js, scyllaDB, tailwindCSS, Redux Toolkit
- Develop **email-based** ticket creation services with **attachment handling, automated ticket generation**, and secure **document storage** capabilities.
 - Implement **Round Robin ticket assignment** mechanisms to automate and evenly distribute support requests among agents.
 - Build real-time application features using **Socket.IO** , including **live notifications, ticket updates**, and **online/offline** user presence tracking.
 - Design and implement **role-based** and **policy-based** access control systems to manage **feature-level** permissions across multiple application modules.
 - Analyze and resolve production issues, perform application maintenance, and optimize system performance to ensure reliability and scalability of the platform.
- 06/2025 – 11/2025 **DevConnect** , | *Development*
React-vite, Node.js, MongoDB, Socket.io , *Redux Toolkit, ShadCN UI, Razorpay*
- Developed a **full-stack social networking platform** for developers to register, connect, and chat in real time.
 - Built scalable **RESTful APIs** using **Node.js** and **MongoDB**, enabling secure authentication and smooth data handling.
 - Integrated **Socket.io** for real-time messaging and **Razorpay** for premium user subscriptions with secure payments.
 - Implemented **Redux Toolkit** for efficient state management and **ShadCN UI** for a modern, responsive user experience.

CERTIFICATES

- [Namatse React Akshay Saini](#) (2024)
- [Hasbasoft Technology Pvt Ltd](#) (2023)
